Hole in Wall Fireplaces Collection

We have over 40 Hole in the Wall designs
on display within our showroom
with a virtual limitless range of sizes
and colours to choose from.
Most of our designs can be adjusted
to customers requirements and can be made
suitable for solid fuel, gas or electric installations.
Enclosed are just a few pictures of our range
on display and available,
please check with our staff for details.
This section features fireplaces suitable
for gas fires only, where chimney is required.
